Springfield, Mass.

"The City of Homes"

Form of Government

Bicameral.

Population

U. S. Census (1930), 149,900.
Local Estimate 149,642.

Native White

114,023.

Colored Population

3,235.

Number of all Males

72,688.

Number of all Females

77,212.

Native Born (White)

76%.

Predominating Nationalities

French-Canadian, Irish, Italian, Russian, Polish.

Area

33.1 sq. miles. Altitude, 66 to 119 ft.

Average Temperature

49.7°

Rainfall

35.9″

Parks, Playgrounds and Land

69 with 1,873 acres valued at $7,333,920.14.

Assessed Valuation

(Jan. 1, 1936)

$256,476,280—real estate.
$25,376,000—personal property.

Tax Rate

$30.00.

Bonded Debt

City's bonded debt is $17,784,500.

Financial

Four commercial banks with total deposits of $69,174,373 (Dec. 31, '35); total resources of $177,647,901 and clearings of $144,648,095 (1935), annually. Three savings banks with total deposits of $84,718,855 (Dec. 31, '35.) Two co-operative banks with assets of $4,699,087 (1935).

Post Office Receipts

$1,267,106.29.

Telephones

(Jan. 1, 1936)

41,744.

Church Buildings

93, representing 18 denominations.

Building Construction

Value of 528 building permits $578,305 with 192 permits for one family houses.

Homes

Number of homes 41,438 with about 12,538 owned by occupants.

Industrial

(1934)

Number of establishments 275 employing 14,307 men and women, paying wages of $15,681,084 annually and having products valued at $58,828,276 annually.

Trade (Retail)

Serves 625,000 people covering an area of 1200 sq. miles. Jobbing territory serves 1,000,000 people within a radius of 50 miles.

Principal Products

Envelopes, valves, sporting and athletic goods, toys and games, Fiberloid plastic, carpets and rugs, guns and pistols, stationery, motorcycles, radios, matches, electrical machinery and apparatus, foundry and machine shop products, chemicals.

Newspapers

Four daily. One Sunday.

Hotels

Fifteen with 2,850 rooms. Newest built in 1929.

Railroads

Boston & Albany, Boston & Maine, New York, New Haven and Hartford.

Highways

Route No. 5 to Vermont and Canada; Route No. 20 to Boston-to Berkshire Trail; Route No. 5 to Hartford, New Haven, New York.

Amusements

Fifteen theatres seating 19,292, one legitimate theatre seating 1,700 and a municipal auditorium seating 3,686.

Hospitals

Eight hospitals with 1,069 beds and bassinets.

Educational

Colleges: International Y.M.C.A. Assn. College, American International College, Northeastern University (Springfield Div.), Bay Path Institute, MacDuffie School for Girls, Inc. Schools: 54 including 3 senior high schools, 5 junior high schools and 10 parochial schools. Number of pupils in public schools 27,630 (1935), in parochial schools 4,975. Total number of school teachers approximately 1,040. Value of public school property approximately $13,272,018.

Public Libraries

Seven, containing 453,934 volumes.

City Statistics

Total paved street mileage 234.53 with 7.61 miles under construction. Miles of gas mains 496. Sewers 254.04. Miles of street railway trackage 103.765. Miles of bus lines 126.95. Approximately 53,000 light meters and 50,000 gas meters. Capacity of municipal water works 25,000,000,000 gallons, a daily average pump of 94 gallons per inhabitant, and with 313.86 miles of mains. Value of plant estimated at $16,790,946.23. Fire department consists of 360 men, 48 pieces of motorized apparatus in 15 station houses, valued at $1,454,069.19. Police department consists of 353 men, 36 pieces of motor equipment and 2 stations, valued at $362,506.68.

THE CITY TODAY

Springfield, Massachusetts was settled in 1636, as a result of the efforts of William Pynchon and a band of faithful followers who sought the fertile valleys in this part of the country, for homesteading purposes. It was made a town May 14, 1636, O.S., and incorporated a city May 25, 1852.

The city has grown to a community having a population of 149,642. Springfield is 99 miles from Boston; 103 miles from Albany, New York, and 135 miles from New York City. Immediately surrounding Springfield are numerous smaller towns and cities, including among the first, West Springfield, Longmeadow, East Longmeadow, Wilbraham and Ludlow, and among the latter, Chicopee.

Springfield has, since the last part of the eighteenth century, been continuously developing as a manufacturing center, although surrounded by communities agricultural in character. The industry of the community is of varied quality. The skill of workmen to be found here has developed the popularity of the community as an industrial section for the manufacture of many varied products. For the most part, raw materials and supplies are transported to the city. The location of the city nearly equidistant from the three large centers—Boston, Albany and New York—is an enviable one.

The rolling hills rising from the Connecticut River Valley provide for excellent residential sections.

The prevailing meteorological conditions give to Springfield typically New England seasons with charming summers and cold winters with some snow.

SERVICE INSTITUTIONS

Springfield is fortunate in having a group of public utility organizations which aid, and have for many years, in the development of the community. Under the municipality, there operates a Springfield Water Works the activities of which provide the community with excellent drinking water, piped to the city from the eastern foot-hills of the Berkshires. An excellent reservoir system practically doubling a previous capacity, and provides a maximum flow adequately to care for the city for many years to come.

The Springfield Gas Light Company produces gas for households at the rate of 74c for first 200 cu. ft., balance used at 11c per 100 cu. ft. For larger household users the rate of $4.25 for first 3,500 cu. ft. and balance at 8c per 100 cu. ft. prevails. Industry is also served at varying rates. A net work of the piping of this corporation covers nearly the whole city, and is being rapidly extended.

The United Electric Light Company provides light and power on a combined flat rate and low energy charge.

Transportation facilities provided by the Springfield Street Railway Company afford excellent local and interurban transportation service. The rehabilitation of the rolling stock of this company and much of the roadbed has been completed, and the newest type of trolleys and busses are available for use.

Springfield has long been recognized as a community in which the educational facilities are of an unusually high standard. The public schools' program is most complete and leads the pupil through the primary grades and junior high schools into one of four high schools of excellent standing and character. In the first—the Classical High School the curriculum is of an essentially academic character, providing for the continuance of education in the academic colleges and universities. The second—the Technical High School—is fundamentally an engineering school and offers courses leading directly to industrial work or into the higher engineering colleges. The third—the High School of Commerce—prepares the pupil thoroughly for a business career and also for entering into a limited group of colleges. The fourth—the Springfield Trade School prepares the pupil for industrial employment.

Freight rates prevail for the shipment of raw materials and finished products into and from the city on a basis which permits our manufacturers to compete with others in similar lines in other parts of the country.

Springfield has dwelling units for 43,787 families and has long been known as a community of home lovers. The environment which has been created is a result of a mixed population, possessing many natural advantages and proving pleasing to all. There are many community civic organizations, each of which was definitely formed for the improvement of its part of the city.

CONSUMING POWER

Farm products valued at over $4,000,000 were raised in Hampden County in 1935 and consumed mostly in this area. $23,824,491 worth of stock and material was used in our factories in 1934. New England, of which Springfield is a part, is forced to import from outside all basic raw materials even to lumber and depends on its skilled labor and native ingenuity in fabrication to maintain its industrial supremacy. The normal consummation of a population of 149,642 is augmented by at least 100,000 to include traveling men, attendants at conventions, schools, etc.

INDUSTRIAL SITUATION

The latest available statistics in Springfield show 275 establishments making as many different lines, using material and stock valued at $23,824,491, paying wages of $15,681,084, employing 14,307 people and producing $58,828,267 worth of products. Many of these factories manufacture products known the world over and spread the fame of Springfield into all countries. Westinghouse Motors and Bosch Radios, Indian Motocycles, Smith & Wesson revolvers, Springfield rifle, Absorbine Junior liniment, Fiberloid products, and Milton Bradley games and toys are typical examples. Industry in Springfield is highly diversified though the manufacture of electrical goods and equipment slightly predominates in value all other lines. Skilled artisans can usually find steady employment in Springfield due to this condition.

Springfield is justly proud of its title, "The City of Homes," and well deserves it as there is a home for approximately every 3½ persons of population, and of those occupied about 30% are owned by the occupant. A recent survey showed that only 113 were classified as untenantable and the majority of these would normally rent for $20 a month or less. This condition is maintained partly by the fact that due to diversity of industry the labor demand is steady. Abundance of water power in the valley has caused erection of enormous hydro-electric stations with the result that reasonable electrical rates prevail and practically all homes enjoy the use of electricity with all its advantages.

FINANCIAL SITUATION

Though having one of the lowest municipal tax rates in Massachusetts, Springfield has been continuously developing without unduly burdening the public and has outstanding bonded indebtedness of but $17,784,500 most of which was incurred for the erection of the Memorial bridge and the installation of one of the finest water supply systems to be found anywhere. Economy is the rule of Springfield's administration though large appropriations for permanent improvements are made yearly to keep pace with the schedule of the City Planning Board. Springfield has four commercial banks and trust companies and three savings banks. The total resources of Springfield banks are $177,647,901, with yearly clearings of $144,648,095. Due to its being so accessibly located, Springfield was chosen as the logical location for the establishment in New England of the district branch of The Federal Farm Loan System.

RETAIL TRADE

While Springfield has a population of but 149,642 people, its retailers serve a territory containing 625,000 population. The three main department stores of Springfield do an annual business in excess of $15,000,000. The large proportion of merchandise carried in Springfield is of a quality nature as there are no great number of the so-called poorer class in Springfield. Seventy-six per cent of its inhabitants are native born.

WHOLESALE TRADE

Springfield is served north, east, south and west by trunk line railroads and it has consequently become a well-known jobbing center. Stocks carried in Springfield cover practically every well-known product manufactured in the United States applicable to the northern climate and are distributed over a radius of more than 50 miles.

CIVICS AND WELFARE

Of outstanding value is the work done by the City Planning Board through whose efforts a definite arrangement for the control of the future growth and development of the city is projected and maintained.

Hospital facilities are more than complete, for the community is fortunate in possessing four hospitals caring for general cases, two hospitals maintained particularly for the care of maternity cases; and one hospital for diseases requiring isolation, erected by the city at a total cost of approximately $750,000. Beautifully modern, the new wing of the Springfield Hospital, erected at a cost of $2,500,000, was opened late in 1931. Springfield is fortunate also in being the home of the Shriner's Hospital for Crippled Children for the whole New England area. Medical and surgical treatment may be had from many physicians and surgeons of repute.

Health and sanitation are carefully guarded. Through our school system the health of the children is given more than adequate attention.

Springfield possesses every type of amusement and recreation offered in cities of its size —theaters, amusement parks, dancing salons, boating, canoeing, golfing, tennis—all of these are available. Supervised recreation for children is made possible through the very efficient work of the Springfield Park Department, through the agency of which are operated 69 public playgrounds, lands and parks covering more than 18 hundred acres.

Of outstanding importance is the Eastern States Exposition held annually in the third week of September on grounds owned by the Exposition, and bringing to the community upwards of three hundred thousand visitors seeking a display of latest agricultural equipment and other displays. Here is held the annual horse show, and to this exposition come the children from the ten eastern states to exhibit their handiwork. On these grounds, the states of Maine, New Hampshire and Vermont, and the Commonwealth of Massachusetts have each erected buildings in which are to be found excellent displays indicative of the quality and character of these four States.

CITY AS A CENTER

Springfield is the center to which tourists come over excellent highways, and through which they pass enroute to Maine, New Hampshire, Vermont, as well as to points of interest in Eastern Massachusetts.

Springfield is a trading center for a population estimated at 625,000. To the community are attracted these persons who seek adequate shopping facilities, excellent stores, fine restaurants and hotels.

The industrial prestige of the city has been developed as a result of the skill of its workers in mechanical trades. It is in a sense an agricultural base, for here are located the Eastern States Farmers' Exchange, the Hampden County Improvement League, and many other agencies working co-operatively for the development of agriculture throughout all of New England.

Springfield is the Western Gateway to New England, and, without question, the most easily accessible city in New England from points outside thereof. During 1935 more than 16,000 persons attended 47 conventions held in the city of Springfield. The Springfield Chamber of Commerce operates a Convention Division which actively solicits convention business and renders a maximum of co-operation to convention groups meeting in this city.

ADVANTAGES AND CLAIMS

In the last analysis, Springfield is the only city in the area between Boston, Albany and New York that has developed in a balanced way along the lines of beauty, education, finance, industry, mercantile and recreation. It is a community to which persons come to visit and remain to live and prosper.

CITY AS A SERVICE CENTER

The Springfield Chamber of Commerce for more than forty years has functioned in a capacity as a counsel and guide not only to citizens of the community, but to those from other cities seeking information or advice about the city. It is ready to co-operate in every practicable way to assure interested persons that they will receive adequate and reliable information concerning the community and its activities.

"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government, and her needs. This knowledge develops, first, an intelligent interest; then, a sympathy; then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

MUNICIPAL WATER WORKS.

The works are in charge of a Board of Water Commissioners consisting of Henry F. Punderson, chairman; Albert B. Vincent and Mayor Henry Martens, ex-officio; Howard M. King, supt.; Leland G. Carlton, clerk and water registrar; Elbert E. Lochridge, chief engineer. Office, (319) City Hall. Service Building and Yard, 71 Colton. Office hours 9 a.m. to 5 p.m. Saturdays 9 a.m. to 12 m. Telephones: (applications and information) 3-2131; (work and trouble calls, day or night) 2-5188. The supply of water is taken from the Little River watershed (situated principally in the towns of Blandford, Granville and Russell) and by means of the following storage structures:

	Capacity in Gallons.
Borden Brook Reservoir (impounding)	2,500,000,000
Cobble Mt. Reservoir (impounding)	22,829,000,000
Intake Reservoir (diverting)	68,100,000
Sedimentation Basin (before filtering)	43,930,000
Provin Mountain Reservior (after filtering)	29,040,000
Total	25,470,070,000

The former supply from impounding reservoirs in Ludlow and Belchertown is also retained at present for towns of Ludlow and Wilbraham and for emergency uses, and, with its storage capacity of 1,424,218,000 gallons makes an aggregate capacity of 26,329,789,000 gallons.

Range of pressure on mains for day and night, as follows: Main street level, maximum, 147 pounds, average, 140 pounds. Hill section level maximum 87 pounds, average, 80 pounds.

The entire supply of city water to any premises is furnished by meter only and at meter rates; the necessary meters are installed by the water works at expense of the consumers for the initial cost of the meters and connections only.

The cost of ordinary care and repairs of all meters is borne by the water works: the cost of unusual repairs (necessitated by freezing, hot water, etc) due or attributable to any carelessness or neglect on the part of the consumer, will be charged to the consumer or owner.

METER RATES.

(Subject to all rules and regulations)

For each 100 cubic feet (748 gallons) of water as registered or estimated for each independent premises* the rates shall be as follows:

For the first 5,000 cubic feet or less per quarter, at 22 cents per 100 cubic feet (about 30 cents per 1,000 gallons).

For all excess over the first 5,000 feet per quarter, at 5 cents per 100 cubic feet (about 7 cents per 1,000 gallons).

Where the aggregated total use for one independent premises* amounts to 750,000 cubic feet or more in any one quarter, the entire quantity will be charged at 5 cents per 100 cubic feet.

Subject to the following minimum quarterly charges.

(a) Single dwellings and double houses or blocks (of two or more ground-floor single-tenement sections), each tenement not less than $2.00 per quarter.

(b) Tenement houses, apartment blocks, etc., each tenement or apartment not less than $1.50 per quarter.

(c) Business blocks, manufactories, and other industrial plants, elevators and motors, each bill for each independent premises, not less than $2.50 per quarter.

Special for Elevator Uses—Where the total or aggregated quantity for operating one or more elevators on each independent premises* amounts to 33,000 cubic feet or more in any one quarter, and is metered and billed independently of all other uses, the entire quantity will be computed at 5 cents per 100 cubic feet; but no bill hereunder shall be rendered at less than $25.00 per quarter.

*Business and industrial buildings of more than one section, and adjoining or adjacent buildings, under one independent ownership as a plant (if not separated by a street or by any other buildings or premises under another ownership), may be considered as one independent premises, and as such, subject to the computing and billing of the foregoing meter rates. In all other cases the supply through each service and meter shall be computed and charged as separate and independent bills.

Each quarterly period will be computed and charged for independently of any other quarterly period and the rates therefore shall be paid accordingly.

When a meter from any cause fails to register the consumption of water, the quantity shall be estimated and the charge made based upon the registration by the meter when in order or upon the registration for corresponding prior quarter or period.

Builders' Uses—Where water is to be used in the construction of ordinary framed buildings, or for small building operations where the use may be easily estimated, the meter installation may be temporarily deferred, as an accommodation to the owner or builder, until the completion or occupancy of the building, and a nominal estimated flat rate may be charged for builders use of water to the owner of the property who will be held responsible for such use and the payment of such charge.

The Water Registrar and the Supt shall determine all cases where the foregoing provisions may apply, and each case shall be considered independently of any other, but no such estimated charge shall be less than $1.00.

Miscellaneous and Temporary Uses—In certain cases of miscellaneous and temporary uses of city water, where the quantity used may be small, the charge for same may be estimated instead of being shown by meter, at the discretion of the Water Registrar and the Supt.

The Water Registrar shall have the right to require an advance deposit as security for the payment of water bills, when he shall consider it for the interest of the city to do so; such deposit not to exceed a year's minimum rate for the property to be supplied or a reasonable estimate of the probable annual amount of such bills.

All bills due the City on account of the Municipal water works shall be payable at the office of the City Collector, Room 137, Municipal Building Court and Pynchon streets within twenty days after the same are rendered and become due.

Inquiries and claims for correction should be made at the office of the Water Registrar, Room 319, Municipal Building.

Delinquent water bills are a lien on real estate.

Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted.*

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days,* therefore—

1000 x 3½ x 305 =

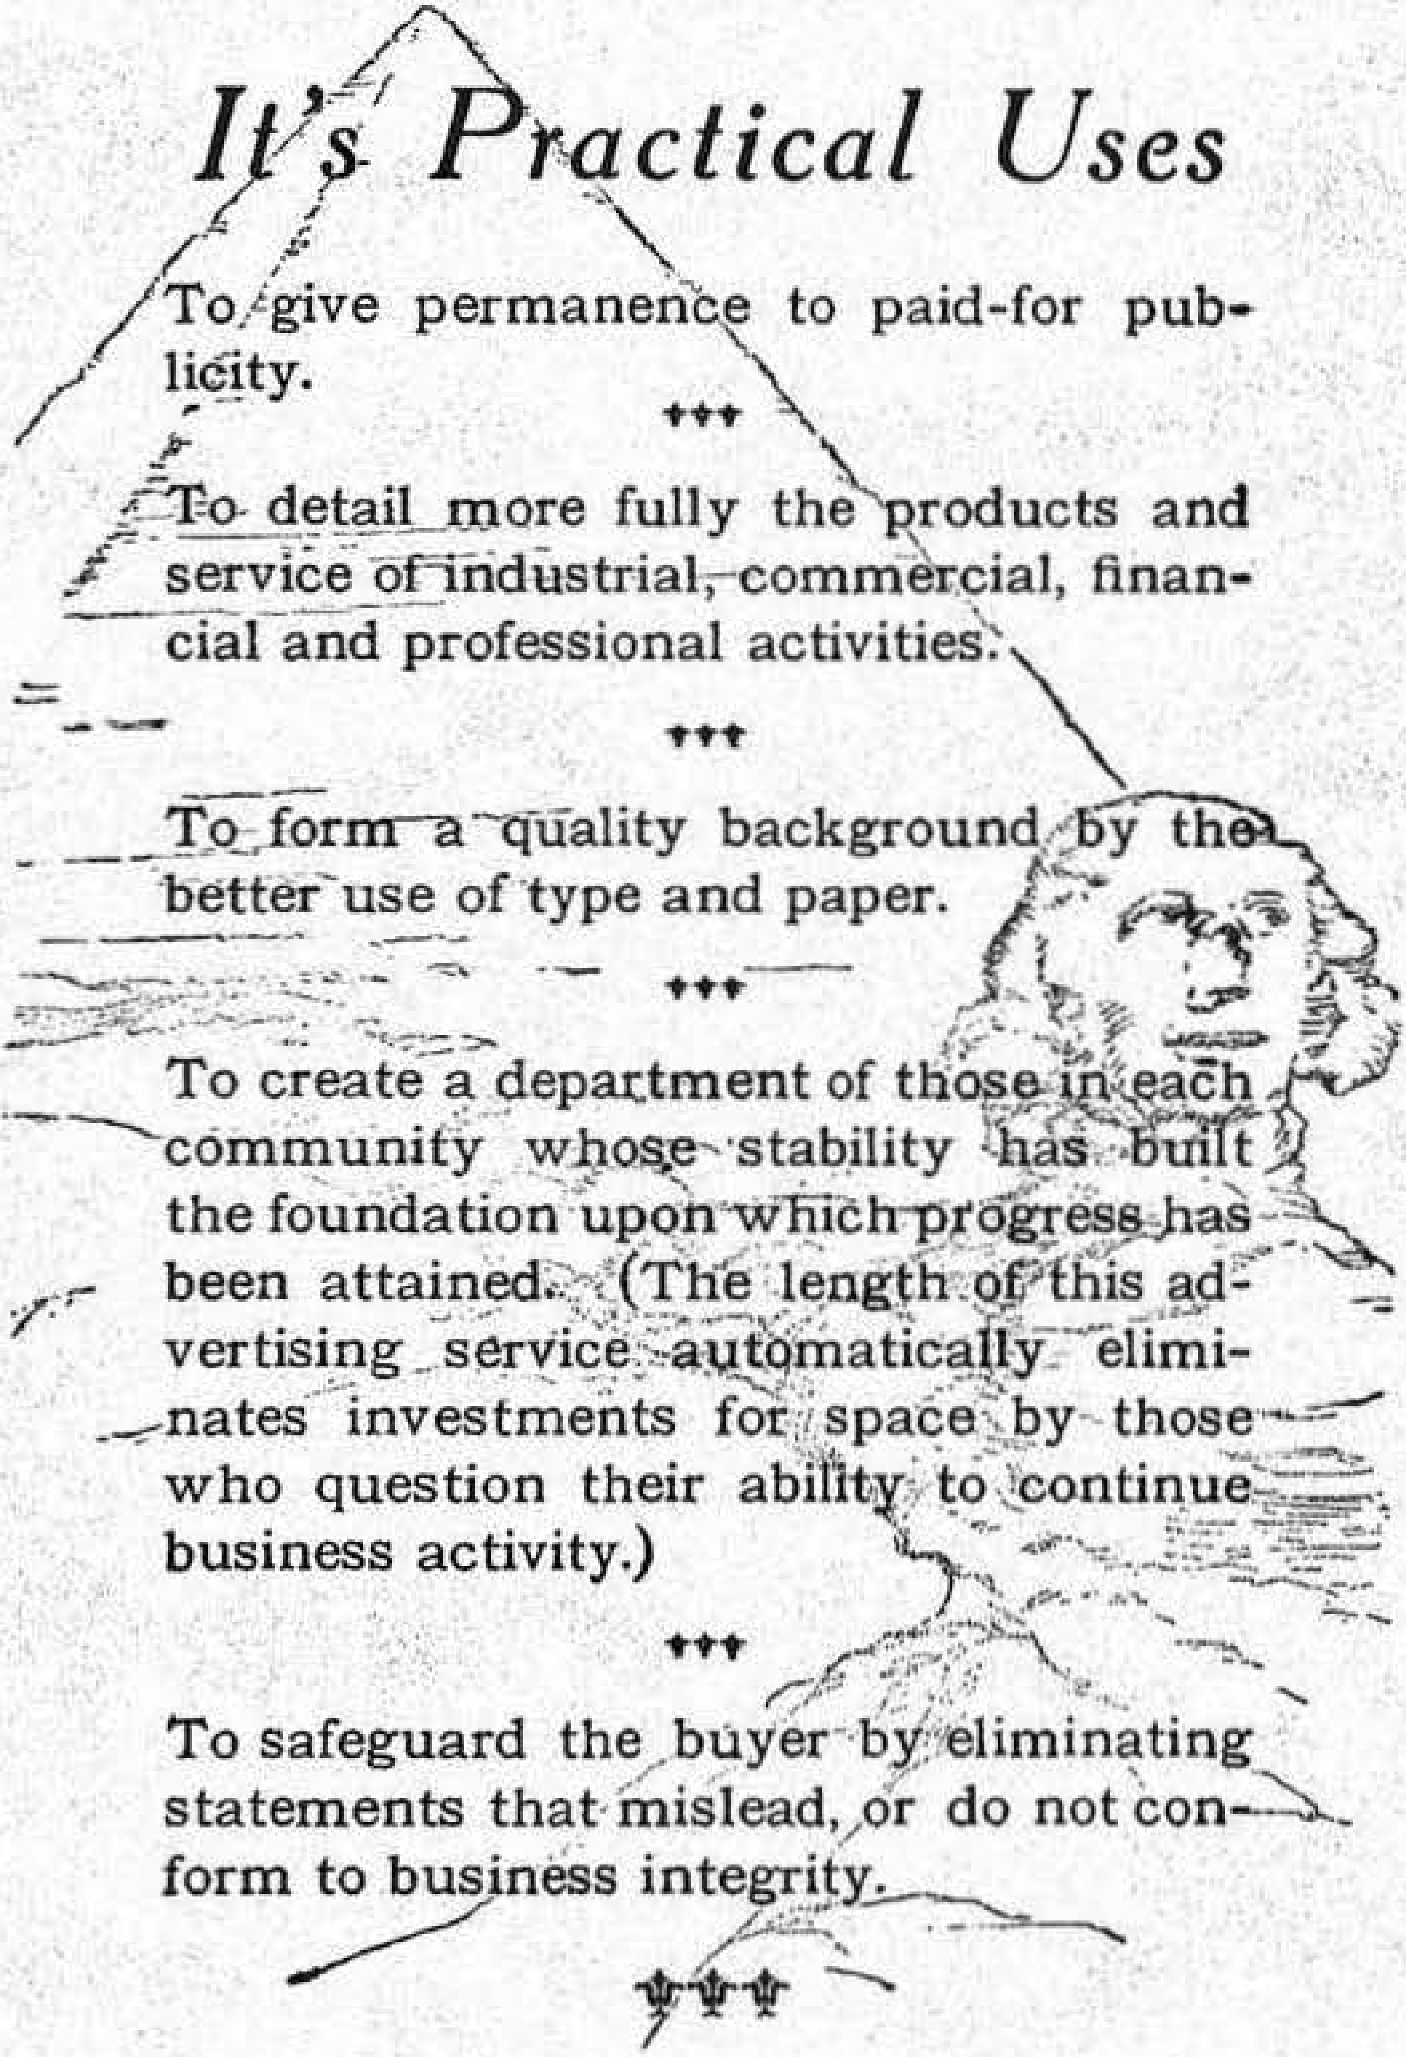
1,067,500

Consultations or

Circulation Consulted

BUYERS' DIRECTORY

It's Practical Uses



To give permanence to paid-for publicity.

+++

To detail more fully the products and service of industrial, commercial, financial and professional activities.

+++

To form a quality background by the better use of type and paper.

+++

To create a department of those in each community whose stability has built the foundation upon which progress has been attained. (The length of this advertising service automatically eliminates investments for space by those who question their ability to continue business activity.)

+++

To safeguard the buyer by eliminating statements that mislead, or do not conform to business integrity.

+++

Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

Department Stores

POOLE'S

1514 MAIN ST at BRIDGE

Pay Cash . . . Pay Less

● Poole's is the rendezvous of careful shoppers, of buying people who treat shopping seriously. From actual experience shoppers who know the best values, the most satisfactory returns for money spent, are found in a cash store. Poole's is first and foremost a cash store. Our business policy of the lowest prices possible for merchandise of unquestioned quality demands that all purchases must be cash transactions. Cash receipts make spot-cash purchases possible. Cash is the dominant force of Poole buying power cash buying power is the foundation of Poole's Low Prices.

All Springfield Looks to Poole's for Quality, Service and Saving

ALBERT STEIGER COMPANY

A STORE OF SPECIALTY SHOPS

Do you remember the little country store that was the hub of your universe? - - the little store that had all the things you ever thought of buying? The ALBERT STEIGER COMPANY is that little store "grown-up" - has 89 individual shops catering to the needs of Men, Women, Children and the Home - - including the Man's Shop, the Hall Galleries, and the Downstairs Store - gives you the same courteous service over a package of pins as over the purchase of a mink coat knows you have to count pennies and makes a point of keeping prices within the reach of everyone. Come in—discover for yourself how pleasant it is to shop at the ALBERT STEIGER COMPANY

* * *

THE HALL GALLERIES . . . . .

On the Fourth and Fifth Floors of the ALBERT STEIGER COMPANY, housing one of New England's most exclusive collections of fine CHINA, CRYSTAL, SILVER, LAMPS, OCCASIONAL FURNITURE and rare hand-wrought pieces - - presenting a choice selection for wedding, engagement, and anniversary gifts, as well as correct and beautiful appointments for the home.

Superfluous Hair Removed by Electrolysis

OVER two score years ago, Dr. Mitchel, oculist, of St. Louis, evolved a method of using electricity for the permanent removal of ingrowing eyelashes. Soon after, his friend, Dr. Hardaway, conceived the idea of using this method for the removal of Superfluous Hair from the human face. Today, physicians everywhere, recommend this method as the only sure way of obtaining permanent relief from this annoying condition.

For forty years this office has employed this method—the method discovered by one, and employed by ALL the old masters, the single electric needle process, in painlessly disposing of these disquieting blemishes *for all time.*

Moles and Warts also safely removed, Eyebrows Shaped.

You are invited to phone, write or call for complete information and demonstration sitting without obligation.

Gas, Domestic and Industrial

GAS is better

for Cooking . . . A modern gas range is the quickest, most convenient range you can buy. It saves your cooking time and it cooks food better every way—broiling, baking or boiling. Modern gas ranges are automatic—they make cooking really easy. Gas is clean—kettles used over a gas flame stay shining. No wonder clever Springfield housewives choose gas for cooking.

for Refrigeration . . . An Electrolux gas refrigerator brings you the finest automatic refrigeration that money can buy. Certain cold, long wear, absolute silence, perfect food preservation—these are just a few of the features of this better refrigerator. When you install an Electrolux, you can look forward to years of trouble free service, for it has no moving parts to wear out or get out of order.

for Water Heating . . . An Automatic water heater ends forever the days of "tank patting" There's always plenty of hot water—24 hours a day, 7 days a week, 365 days a year, when you have an Automatic Gas water heater.

A Safe Income
For Your Family—For Yourself

The life insurance you have for your young family's protection during early years builds up a value available for your own and your wife's support later.

By arranging to have the proceeds paid as income—to your family if you don't live, to yourself if you do—you make certain the money will last for a definite period or for as long as it shall be needed. Booklet, "How to Build Up a Guaranteed Income for You and Your Family," outlines income plans.

AN OPPORTUNITY

TO advertise your business in detail where people will see it. It will be referred and cross referred from headings people look at when they want to buy goods.

Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted.*

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days,* therefore—

1000 x 3½ x 305 =

1,067,500

Consultations or

Circulation Consulted

Manufacturing Department

SPRINGFIELD PRODUCTS are known the world over. The following pages are an index to the wide range and variety, the kind and quality of manufactured articles produced in this great and growing city. As a distributing center for Western New England and Eastern New York, Springfield offers exceptional advantages. A live, progressive Chamber of Commerce, a large market of skilled labor, and splendid railroad facilities — insure progress, prosperity and publicity to the City of Homes. When doing business with concerns advertised in the following pages, please mention the City Directory

Names and Addresses Available at our

New Haven Office

We Have A Directory Library covering almost every community in America

We have a trained attendant who knows how to find the information required

All You Need is a postal on which to write the name required, send it to us today, the information will be returned to you tomorrow.

BETTER STILL
Call New Haven 7-1910 to get it at once

To supplement this service Directory Libraries are maintained at the Business Branch of the Public Library, 34 Commerce St., Newark, N. J., Telephone Market 2-1290; Bridgeport Public Library, 925 Broad St., Bridgeport, Conn., Telephone 3-2174; the Business Branch of the Public Library, 730 Main St., Hartford, Conn., Telephone 5-0949; and the Springfield City Library, 220 State St., Springfield, Mass., Telephone 2-2188.

The Price & Lee Company

248 Meadow Street, New Haven, Conn.

ALPHABETICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to the complete name of each person over twenty years of age.

Information—as to the occupation of each person over twenty years of age.

Information—as to the address of each person over twenty years of age.

Information—as to the nature and activities of firms and partnerships.

Information—as to names of each member of firms and partnerships.

Information—as to the names of corporations, their nature and activity.

Information—as to the correct spelling of each and every name.

Information—as to whether a person is a "householder" (h) or "resides with" (r).

Information—as to what is the wife's name of each married man.

Information—as to what was the husband's name of each widow.

Information—as to the location of removals from city.

Information—as to the age and date of death of persons appearing in the preceding directory.

Information—as to those seeking prominence and prestige by display type.

—Finally—

Our Ideal

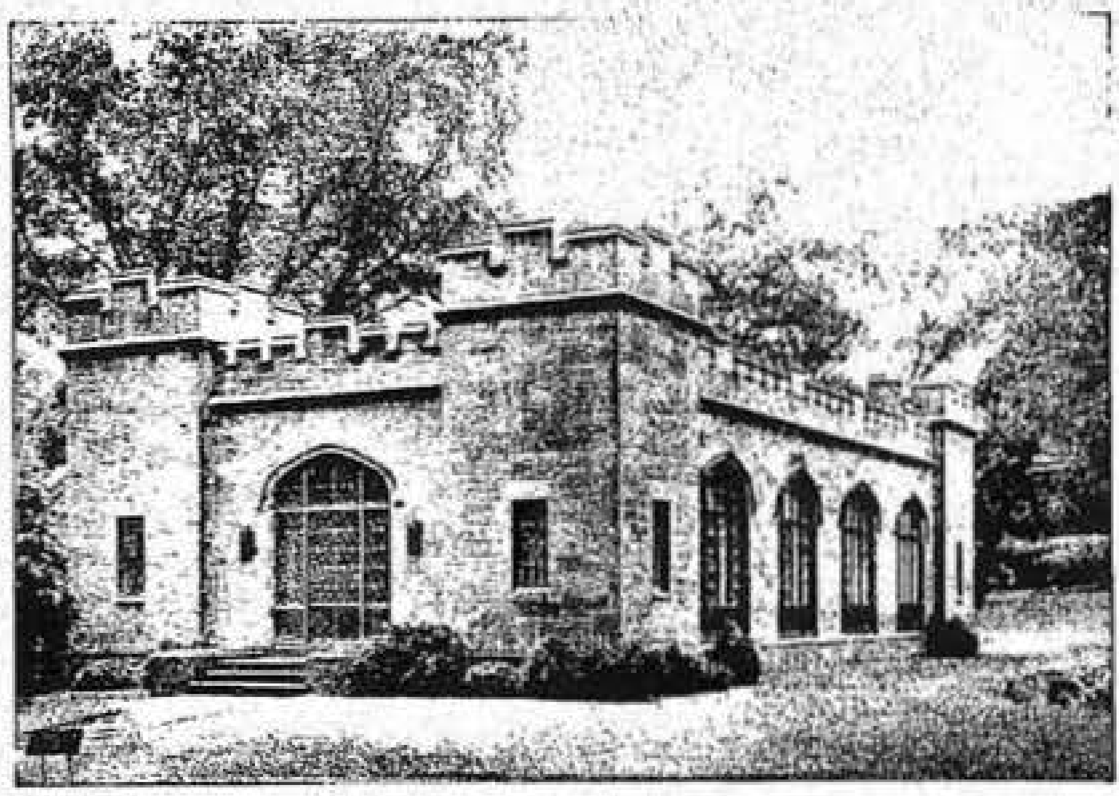
"If it has a name and location—it's here"

THE PRICE & LEE CO.

SPRINGFIELD CEMETERY ASSOCIATION

Established 1841 **Purely Mutual**

Most Completely Equipped Cemetery
in Western New England



Exterior View of the Columbarium

Cremated remains may be kept in a general repository should the family be undecided as to the disposition of these remains, for a nominal fee.

The Columbarium is opened for visitors each week day. except holidays, from 8.30 A. M. to 5 P M., Saturdays until 4 P M. It is recommended that the Columbarium be visited, as our facilities here are unequalled.
